

1. My family listens to KLOVE every day. It's a station that is safe for all ages to listen to, and something that I can relate to my teenage daughter with.
2. If you replace this local station by an LPFM broadcaster, there is nothing to replace it. It serves our community as a ministry opportunity, as a place for encouragement. Replacing this station would leave a real void.
3. KLOVE serves the public by providing public service announcements for local churches; by allowing Christians in our community to have a wholesome place for music that the entire family can enjoy; and it provides charity to those in need in our local area as well as abroad.

There is no comparison to KLOVE. To replace it with an LPFM broadcaster providing other programming would definitely be a detriment to our community. As a concerned citizen, I ask you to please protect this station.
